## SUMMARY

A Software Engineering student at ALX Africa currently on Front-end specialization. I'm fueled by my passion for technology, IoT enthusiast and constantly seeking to broaden my skills. Currently, I'm also enrolled in the Google IT Support Professional program on Coursera, expanding my expertise in IT support. Additionally, I'm committed to obtaining my CompTIA certification at a later convenient time, to further solidify my expertise.

ALX Africa provides me with a solid foundation in Software Engineering, while the Coursera program enhances my understanding of IT systems. Through these combined experiences, I'm developing a comprehensive skill set to tackle diverse challenges in the tech industry. I'm excited about the opportunities ahead and dedicated to making a meaningful impact with my knowledge and dedication.
